SOUND EQUIPMENT INSTALLATION

You probably noticed things look and sound a little different this morning. This is because we are in the middle of installing new sound equipment in the sanctuary.

Back in early February, our church voted to replace our current sound system due to its age and continuing deterioration. Though an order was placed for the new equipment the following week, it experienced several delays due to supply chain issues and was just delivered last week.

We're thankful for this blessing and excited for how it will affect the quality of sound in our services. Thank you for your continual support and patience during this transition.
